WORKING TOGETHER

The Council's community is an open space where everyone is welcome. Please remember that the staff are a small team who are doing their best.

Our community:

- Is kind, courteous to staff and each other, open minded, inclusive of a diversity of views and respectful.
- Recognises we all care about ecological and climate justice but may have different priorities and theories of how change happens.
- Is considerate of the limited capacity of the staff team.
- Calls people into conversations rather than calling people out.
- Brings questions and points of discussion to the staff team as the door is always open.

Everyone is needed and everyone is welcome.
